- Github
- Beginner in React Native (Mobile Applications)
- good at dealing with computer hardware.

- **Islamic website**
  This website has Holy Quran, hadith, Noble Qur'an Radio, Prayer times and desertion.
  Demo : **https://sparkling-scone-e14e48.netlify.app/**

- **Scroll reveal library and parallax in pure JS**
  Demo: https://ubiquitous-genie-5f3b91.netlify.app/

- **Shorten Url -FullStack**
  Demo: http://ecommerce2.atwebpages.com/

- **My-Portfolio -In React.JS**
  Demo: https://poroflio.herokuapp.com/

- **mp3-player, staggered-animation and voice-search in React.Js**
  Demo: https://quran-30.herokuapp.com/

- **E-commerce Template UI (Not all complete)**
  Demo: http://ecommercetemp.atwebpages.com/

- **Website to upload photo and get its link**
  Demo: https://upload-it.herokuapp.com/home

- **Quiz System -FullStack**
  I made a quiz system app that can admin only manage teachers accounts and subjects and teachers only can manage students accounts and quizzes and its questions and see students data and degrees and print it and if student submit quiz he can't do it, again and there are time for each quiz if it finishes quiz submit automatically and calculate the degree of it on student choices before submission. I used html css pure js php mysql.

students demo accounts

  - account:1 -> Email: mmoh33650@gmail.com -*- Password: admin
  - account:2 -> Email: mmoh33652@gmail.com -*- Password: admin

Teachers demo accounts

  - account:1 -> Email: mmoh33650@gmail.com -*- Password: 01212745939
  - account:2 -> Email: mmoh33651@gmail.com -*- Password: admin

Demo: http://registesys.mywebcommunity.org/student.php

- **Registration form with local storage**
  Register data in local storage.
  Demo: https://dulcet-malasada-0c94a7.netlify.app/

- **Compress images in PHP and MySQL**
  Using PHP-built-in functions to deal with images.
  Demo: https://imagesmanipulation.000webhostapp.com/

- **Education website (Not completed)**
  Organize the process between faculty or school or teacher with subjects and students and classes.
  The project is here : https://github.com/mohamedreda3/FullStackEducation

- **Other projects**
  Like To-do app in react.js and rich-text-editor in my github account.
  Here: https://github.com/mohamedreda3/

Languages

- Good at English.
- Very good at Arabic (Native).

Experience

I am a software developer with 1.5 years of experience in web design and web development.
